

REMARKS

Prior to prosecution on the merits, Applicants are providing a conformed specification pursuant to 37 C.F.R. § 1.52(B)(6). In addition, the specification has been amended to comply with the requirements of U.S. practice e.g., to provide proper subheadings arranged in the order set forth in Rule 77.

Claims 1-19 have been amended for the purpose of complying with the requirements of U.S. practice, and thus facilitating initial examination of this application. Newly added claims 20 and 21 contain recitations deleted from claims 10 and 19. Newly added claims 20 and 21 find support throughout the specification. The above-noted new claims are respectfully submitted in order to more clearly and appropriately claim the subject matter which Applicants consider to constitute their inventive contribution. No new matter is included in these amendments.

In view of the above, it is respectfully requested that these amendments now be entered, and that prosecution on the merits of this application now be initiated. If, however, for any reason the Examiner does not believe such action can be taken, it is respectfully requested that he telephone Applicants' attorney at (908) 654-5000 in order to overcome any objections which he may have.

If there are any additional charges in connection with this requested amendment, the Examiner is authorized to charge
